

neodisher® BioRinse

DE/038/054

Rinse aid for tableware

Liquid concentrate

Field of application:

Rinsing tableware, food containers and trolleys in ware washers and decontamination systems in all food processing areas, such as professional kitchens, butcher's shops and bakeries

Performance spectrum:

- Suitable for materials such as porcelain, stoneware, glass, stainless steel, plastic, aluminium and anodised aluminium
- neodisher BioRinse is certified with the EU Ecolabel. Its cleaning performance and its environmentally friendly properties comply with European regulations in regard to ecological demands to ingredients and packaging.

Special properties:

- Reliably dries even difficult to wet materials such as plastic
- Acidic; neutralises carried-over alkali residues and alkaline water
- Very user-friendly; no hazardous substance

Application and dosage:

neodisher BioRinse is used in dishwashers and decontamination systems. It is dosed into the last rinsing water via an automatic dosing device.

The dosing amount is 0.3 – 1.0 ml/l, depending on the water quality, the rinsing temperature, the type and the material of the items to be washed.

The optimum dosage of neodisher BioRinse should be adjusted when putting the washer into operation.

Better for the environment...

- Reduced impact on aquatic ecosystems
- Limited hazardous substances
- Performance tested

...better for you.

EU Ecolabel
www.ecolabel.eu

The dosing recommendations are to be observed.

Water quality	Dosage
Soft water (0 – 6 °dH)	0.3 – 0.5 ml/l
Medium hard water (7 – 13 °dH)	0.5 – 0.7 ml/l
Hard water (> 14 °dH)	0.7 – 1.0 ml/l

By using this EU eco-labelled product according to the dosage instructions will contribute to the reduction of water pollution and waste production.

The dosing system must be acid-compatible when using neodisher BioRinse.

Notes on application:

- For professional use only.
- Do not mix with other products.
- Rinse out dosing system including suction hose with water before changing product.
- Observe the instructions given by the manufacturer of the dishwashers resp. decontamination systems.
- Storage and transport only permitted in original packaging!

Technical data:

pH-value	approx. 4 (0.3 - 1.0 ml/l, determined in deionised water, 20 °C)
Viscosity	approx. < 50 mPas (concentrate, 20 °C)
Density	1.04 g/cm ³ (20 °C)

Ingredients:

Ingredients according to Regulation (EC)
No 648/2004 on detergents:
< 5 % nonionic surfactants
also preservatives (potassium sorbate)

Storage information:

Always store at a temperature between 0°C and
30 °C. Usable for 3 years when stored as
recommended. For expiry date refer to the stamp
mark on the label behind the hourglass symbol .

Hazard and precautionary statements:

neodisher BioRinse is not a hazardous product
according to CLP Regulation (EC) No.
1272/2008.

If applied according to the instructions for use the
product is safe according to the appropriate
guidelines for food processing.

Dispose only when container is empty and closed.
For disposal of product residues, refer to the EC
Safety Data Sheet.

For further safety information, see Safety Data
Sheets. These are available at
www.drweigert.com under the category
"Service/Downloads".
