

neodisher® floor special

Acidic intensive cleaner for floors

Liquid concentrate

Fields of application:

- Intensive cleaning of floors and walls in all food processing fields such as professional kitchens, butcher's shops and bakeries

Performance spectrum:

- Effectively removes acid-soluble soiling such as lime and other mineral deposits as well as fat and protein soiling enclosed therein
- Suitable for wiping as well as for use with low-pressure and foam cleaning equipment
- Suitable for all acid-compatible surfaces made of e.g. chrome nickel steel, rubber and plastic (e. g. epoxy resin and methyl methacrylate) as well as for tiles and cement brick. Highly suitable for difficult-to-clean surfaces and non-slip surfaces (e. g. safety tiles)
- Not suitable for acid-sensitive surfaces, e. g. surfaces made of marble. With surfaces made of aluminium, non-ferrous metals and alloys of non-ferrous metals only short action times are recommended as well as a general check for suitability before using the product

Special properties:

- Fast and powerful cleaning action
- Develops stable and long-lasting foam
- Highly concentrated.

Application and dosage:

Dilute neodisher floor special according to the below-mentioned dosing recommendations. Apply the solution onto the surfaces to be cleaned and allow the product to act for a short time. Loosen particularly stubborn soiling with a scrubbing brush and then rinse the solved dirt particles with plenty of fresh water. The working temperature should not exceed 50 °C.

Wet tile joints and fittings with fresh water before using neodisher floor special.

Regular cleaning (light soiling)	10 - 30 ml/l 1.0 – 3.0 %
Intensive cleaning (normal soiling)	20 - 50 ml/l 2.0 – 5.0 %
Intensive cleaning (very stubborn soiling)	100 ml/l 10.0 %

Notes on application:

- For professional use only.
- For an economical and controlled dosage the use of manual dosing ancillaries such as mixing equipment or canister pumps is recommended. Please contact us.
- Surfaces that come into contact with food must be rinsed with drinking water after each cleaning and disinfection to remove residues.
- Do not mix with other products.
- Storage and transport only permitted in original packaging.

neodisher[®] floor special

Technical data:

pH-range	2.1 - 1.7 (1.0 - 10.0 %, determined in deionised water, 20 °C)
Density	approx. 1.3 g/cm ³ (20 °C)
Titration factor	0.26 (according to neodisher titration instructions)

Ingredients:

Ingredients according to Regulation (EC)
No 648/2004 on detergents:
5 - 15 % anionic surfactants
> 30 % phosphates
also perfumes (limonene)

Storage information:

Always store at a temperature between -20 °C and 30 °C. Usable for 2 years when stored as recommended. For expiry date refer to the stamp mark on the label behind the hourglass symbol .

Hazard and precautionary statements:

For safety information, see safety data sheets. These are available at www.drweigert.com under the category "Service/Downloads".

If applied according to the instructions for use the product is safe according to the appropriate guidelines for food processing.

Dispose only when container is empty and closed. For disposal of product residues, refer to the Safety Data Sheet.
