

neomoscan[®] CP clean 200

Neutral cleaner for the pharmaceutical and cosmetics industry

Liquid concentrate

Fields of application:

- Manual cleaning of surfaces in wiping processes as well as utensils and small and detachable parts in immersion and ultrasound baths.

Performance spectrum:

- Reliably removes organic production residues
- Universal application
- Excellent material compatibility
- Free of perfume and colouring agents
- Acts indifferently towards all materials normally used in the pharmaceutical and cosmetics industry

Application and dosage:

- neomoscan CP Clean 200 is usually dosed in the concentration range of 0.1–0.2 percent by weight. For heavy soiling, the concentration can be increased to approx. 1.0 percent by weight.
- The exact application parameters should be determined with the help of practical experiments.

Notes on application:

- For professional use only.
- In order to avoid product residues, rinse all surfaces with drinking water or fully deionised water, especially those that come in contact with food or pharmaceutical and cosmetic products, after each cleaning and disinfection measure.
- Do not mix with other products.
- Rinse out the dosing system including suction hoses with water before changing product.
- Dose only from the original container

- Do not use as a concentrate – only as a working solution
- Please observe the operating instructions given by the manufacturer of the system/device
- The weigomatic dosing systems and neomatik dosing devices from Dr. Weigert enable controlled, safe and economical application. We are a specialist operation as per the German Federal Water Act (WHG). Suited to the individual conditions and requirements, we plan, install and maintain central and distributed dosing systems.
- Methods for quantification of product residues for cleaning validation are available on request.

Technical data:

pH value	6.0 (1% in fully deionised water, 20 °C)
Density	Approx. 1.0 g/cm ³ (20 °C)

The product specification may contain deviating test parameters and is available on request.

Ingredients:

Ingredients for cleaning agent according to Regulation (EC) no. 648/2004 on Detergents: 5–15% non-ionic surfactants, anionic surfactants also preservatives (1,2-benzisothiazol-3(2H)-one, 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one (3:1))

Storage information:

Always store at a temperature between 0 and 30 °C. Usable for three years when stored as recommended. For the expiry date, refer to the stamp mark on the label behind the hourglass symbol .

neomoscan[®] CP clean 200

Changes in the colour of the product may occur when storing in factory-sealed trade units. This has no impact on the properties of the product which are relevant for application.

Hazard and precautionary statements:

For safety and environmental information, see safety data sheets. These are available at www.drweigert.com under the category "Service/Downloads".

If applied according to the instructions for use, the product is safe according to the applicable guidelines for food processing.

Dispose only when the container is empty and closed. For disposal of product residues, refer to the safety data sheet.

MB 1008/3-1

Date of issue: 03/2022

The details in this data sheet are based on our current knowledge and experience. They do not exempt users from conducting their own tests and experiments, and do not constitute a legally binding commitment regarding specific properties.
