

neomoscan[®] Clean A

Alkaline detergent for milking and milk cooling systems

Liquid concentrate

Fields of application:

Automated and manual cleaning of milking and milk-cooling systems as well as milk containers in milk-producing establishments

Performance spectrum:

neomoscan Clean A is an alkaline, active chlorine-containing cleaning agent with the following properties:

- Reliably removes organic residues such as milk protein and fat
- Free of surfactants, low-foaming adjustment
- Suitable for low to medium water hardness
- Approved by the German Agricultural Society (DLG)¹ and included on the DLG product list of cleaning agents and disinfectants for milking systems (Group 2 R alkaline)
- Suitable for stainless steel, rubber and alkali- and active-chlorine-resistant plastics and seals
- Not suitable for aluminium and light alloys as well as copper, brass and non-ferrous alloys

Application and Dosage:

- For optimum results, milking systems should be cleaned as follows after every use and so should milk-collection containers, cooling tanks and milk containers after every time they are emptied:
 1. Pre-rinsing with cold to lukewarm water
 2. Cleaning with a 0.5 per cent by weight niroklar Clean A application solution (e.g. 41 ml per 10 l of water) at temperatures of 40 °C to 60 °C and a circulation time of 15 to 20 min.

- For the safe removal of mineral deposits such as water hardness and milkstone, we recommend daily acidic contrast cleaning with niroklar Clean S: in the mornings alkaline with neomoscan Clean A, in the evenings acidic with niroklar Clean S

Notes on application:

- For professional use only.
- In order to avoid product residues, rinse surfaces with drinking water, especially those that come in contact with food, after each cleaning and disinfection measure.
- Do not mix with other products.
- Rinse out dosing system including suction hose with water before changing product.
- Only dose from the original container.
- Do not use as a concentrate – only as a working solution.
- Please observe the operating instructions given by the manufacturer of the system/device
- The instructions given by the manufacturer of the milking and milk cooling systems are to be observed.
- The weigomatic dosing systems resp. neomatik dosing devices by Dr. Weigert enable controlled, safe and economical application. We are a specialist company in accordance with the German Water Conservation Act (Wasserhaushaltsgesetz, WHG). Suited to the individual conditions and requirements we plan, install and maintain central and distributed dosing systems.

Determining concentration:

2 drops of a 3% hydrogen peroxide solution are added to 10 ml neomoscan Clean A solution, the mixture is shaken briefly and after adding 1-2 drops of phenolphthalein solution, the mixture is titrated with 0.1 hydrochloric acid until the colour changes from red to colourless.

ml of 0.1 N HCl used x 0.32 = % (w/w) neomoscan Clean A

Technical data:

Appearance	clear, yellow liquid
pH-value	approx. 13 (1% in deionised water, 20 °C)
Density	approx. 1.2 g/cm ³ (20 °C)
p-value	approx. 13 (ml of 0.1 N HCl used in titration of 400 mg concentrate against phenolphthalein)
Active chlorine	approx. 440 mg / l (in 1% solution)

The product specification may contain deviating test parameters. This specification can be obtained on request.

Ingredients:

Ingredients according to Regulation (EC) No 648/2004 on detergents:

< 5 % chlorine-based bleaching agents, phosphonates

Storage information:

Always store at a temperature between -20 °C and 25 °C. Keep away from sunlight. Usable for 1 year when stored as recommended. For expiry date refer to the stamp mark on the label behind the hourglass symbol .

Changes in the colour of the product may occur when storing in factory-sealed trade units. This

has no impact on the properties of the product which are relevant for application.

Hazard and precautionary statements:

For safety information see Safety Data Sheets. These are available at www.drweigert.com under the category "Service/Downloads".

If applied according to the instructions for use the product is safe according to the appropriate guidelines for food processing.

Dispose only when container is empty and closed. For disposal of product residues, refer to the Safety Data Sheet.
