

Chain lubricant for the food industry

Liquid concentrate

Fields of application:

- Lubrication of conveyor belts, especially belts for transporting glass and PET bottles as well as cans on stainless steel and plastic belts in the food and drinks industries

Performance spectrum:

neomoscan G 15 contains a combination of fatty amine derivatives, complexing agents and non-ionic surfactants with synergistic effect. The chain lubricant has the following properties:

- Highly effective, very low application concentrations
- Low-foaming working method
- Dispersing and wetting action
- Very good prevention of scaling and soiling
- Excellent lubricating effect
- Outstanding preservation of material and therefore minimisation of wear and tear
- Also suitable for water hardness levels of up to 30 °dH

Application and Dosage:

- neomoscan G 15 is dosed in the concentration range of 0.1 – 0.3 per cent by weight, depending on requirements

Notes on application:

- For professional use only.
- In order to avoid product residues, rinse surfaces with drinking water, especially those that come in contact with food, after each cleaning and disinfection measure.
- Do not mix with other products.
- Rinse out dosing system including suction hose with water before changing product.
- Only dose from the original container.
- Do not use as a concentrate – only as a working solution.
- Please observe the operating instructions given by the manufacturer of the system/device.
- The weigomatic dosing systems resp. neomatik dosing devices by Dr. Weigert enable controlled, safe and economical application. We are a specialist company in accordance with the German Water Conservation Act (Wasserhaushaltsgesetz, WHG). Suited to the individual conditions and requirements we plan, install and maintain central and distributed dosing systems.

Determining concentration:

The working solution is determined by a special procedure. A detailed description of the method can be obtained on request.

Technical data:

Appearance	yellowish liquid
pH-value	approx. 6 (1% in deionised water, 20 °C)
Density	approx. 1.0 g/cm ³ (20 °C)

MB 1599/3-1

Date of issue: 05/2023

The product specification may contain deviating test parameters. This specification can be obtained on request.

Ingredients:

Does not contain ingredients according to Regulation (EC) No 648/2004 on detergents: none

Storage information:

Always store at a temperature between 0 °C and 30 °C. Usable for 3 years when stored as recommended. For expiry date refer to the stamp mark on the label behind the hourglass symbol .

Changes in the colour of the product may occur when storing in factory-sealed trade units. This has no impact on the properties of the product which are relevant for application.

Hazard and precautionary statements:

For safety information see Safety Data Sheets. These are available at www.drweigert.com under the category "Service/Downloads".

If applied according to the instructions for use the product is safe according to the appropriate guidelines for food processing.

Dispose only when container is empty and closed. For disposal of product residues, refer to the Safety Data Sheet.

With the above information, to our current knowledge we describe our product regarding safety necessities, but we do not involve any quality description or promise certain properties
