

Teat care agent

Ready-to-use solution

Fields of application:

- Hygienic care for protecting teats after milking
- Ready-to-use solution for spraying by means of automatic spraying systems (e.g. on milking robots and by means of hand-held spraying devices). Also suitable for dipping with standard dip cups and foam cups.

Performance spectrum:

neosan Care is an effective teat care agent with the following properties:

- Contains the skin care component glycerine
- Soothes and moisturises for smooth, resistant teats
- Ideal for automatic spraying systems, for standard dip and foam cups

Application and dosage:

Spray/dip/wet the teats with neosan Care as soon as the milking equipment has been removed. neosan Care is used in undiluted form.

General notes on application:

- For professional use only.
- Do not mix with other products.
- Only dose from the original container.
- Please observe the operating instructions given by the manufacturer of the milking and milk cooling systems.

Technical data:

Appearance	reddish liquid
pH value	approx. 5.5 (concentrate, 20 °C)
Density	approx. 1.0 g/cm ³ (20 °C)

Ingredients:

Water, glycerine, propan-2-ol

Storage information:

Always store at a temperature between 0 °C and 30 °C. Usable for 2 years when stored as recommended. For the expiry date, refer to the stamp mark on the label behind the hourglass symbol .

Hazard and precautionary statements:

For safety information, see Safety Data Sheets. These are available at www.drweigert.com under the category "Service/Downloads".

Dispose only when the container is empty and closed. For disposal of product residues, refer to the Safety Data Sheet.

DS 1604/3-1
