

neodisher[®] POUCH active

Intensive degreaser for surfaces and equipment

Liquid high concentrate for use in the
neomatik smart POUCH dosing system

Fields of application:

- For very dirty surfaces and equipment and in all food processing fields such as professional kitchens, butcher's shops and bakeries

Performance spectrum:

- Removes stubborn fat layers from surfaces such as extractor hoods, working surfaces and equipment
- Suitable for all materials such as glass, porcelain/china, plastic and stainless steel
- Aluminium, anodised aluminium and light metal alloys should be tested first

Special Properties:

- Fast and powerful cleaning action
- Universal application
- Excellent material compatibility
- Very user-friendly; thanks to the pouch system no contact with the product concentrate
- Colour coding prevents mix-ups
- Less packaging waste compared to commonly used bottles or canisters

Application and dosage:

Dilute neodisher POUCH active according to the below mentioned dosing recommendations using the neomatik smart POUCH dosing system. Apply the working solution on the surfaces to be cleaned and allow it to act for some minutes. Then rinse the solved dirt particles with plenty of fresh water.

Depending on degree of soiling	5 ml/l - 20 ml/l	0.5 % - 2.0%
--------------------------------	------------------	--------------

General instructions on use:

- For professional use only!
- For economical and controlled dosing the use of the neomatik smart POUCH dosing system is recommended.
- Surfaces that come into contact with food must be rinsed with drinking water after each cleaning and disinfection to remove residues.
- Do not mix with other products.
- Storage and transport is only permitted in original packaging.

Technical data:

pH-value	11.6 - 12.8 (5 - 100 ml/l, determined in deionised water, 20 °C)
Viscosity	< 100 mPas (concentrate, 20 °C)
Density	approx. 1.1 g/cm ³

neodisher[®] POUCH active

Ingredients:

Ingredients according to Regulation
(EC) No 648/2004 on detergents:
< 5% non-ionic surfactants
5 - 15% anionic surfactants
also perfumes (limonene)

Storage information:

Always store at a temperature between
0 °C and 30 °C. Usable for 2 years when stored
as recommended. For expiry date refer to the
stamp mark on the label behind the hourglass
symbol .

Storing below +5 °C might lead to reversible
clouding which will disappear under warmer
storage conditions.

Changes in the colour of the product may occur
when storing in factory-sealed trade units. This
has no impact on the properties of the product
which are relevant for application.

Hazard and precautionary statements:

For safety information see safety data sheets.
These are available at www.drweigert.com under
the category "Service/Downloads".

If applied according to the instructions for use
the product is safe according to the appropriate
guidelines for food processing.

Dispose only when container is empty and closed.
For disposal of product residues, refer to the
Safety Data Sheet.
